

Location of the Delprato Cabin

Four-wheel drive vehicles are needed to reach the Cabin. To locate the Delprato Cabin, follow the Blakeburn FSR to the 4km mark. A corral is located on the left, just past the cattle guard. Drive through the corral ensuring the gate is left as it is found (either open or closed). Do not go through the corral if the rancher is herding her cattle. Once through the corral, there is a direction sign at about ½ km. Stay to the left and follow this road to the Cabin. The road can be quite muddy in the spring, so drive with caution.
